OBJECTIVE

A dedicated front-end developer passionate about building clean, responsive, and user-friendly web interfaces. Committed to learning modern development practices and continuously enhancing coding and design skills. Eager to contribute to innovative projects and grow within a collaborative, fast-paced team environment.

EDUCATION

Hazara University, Mansehra Pakistan

July 2024

Bachelor of Science in Computer Science

Khabar Pakhtunkhwa Trade Testing Board

April 2019

Information Technology

SKILLS

Front-End Developer

Languages: HTML5, CSS3, JavaScript, Bootstrap 5, Tailwind CSS, React.js,

Tools: Git/GitHub, VS Code, Chrome DevTools

PROJECTS

Portfolio Website (In Progress)

Currently building a responsive portfolio website using React.js and Tailwind CSS to showcase my front-end development projects with a focus on modern design and functionality.

- Set up a fast and optimized development environment using Vite for efficient React.js project building.
- Designed a fully responsive UI with Tailwind CSS, focusing on clean layout, smooth navigation, and mobile-first design principles.
- Structured the project with reusable components in React.js to ensure scalability, maintainability, and consistency across all pages.

EXPERIENCE

HSSOLS.COM

Jan 2025 – April 2025

Front-End Developer (Intern)

Islamabad, Pakistan

- * Collaborated with the development team to build and maintain responsive web pages using HTML, CSS, Bootstrap, and Tailwind CSS.
- * Worked on optimizing UI components for better performance and user experience across multiple devices and browsers.
